The library is now located in the bottom of the monitor stand. The club is trying to keep everything confined to a small area so we do not take up too much room.

John Urness is taking dues for your 2016 membership. The membership for a family is \$30 per year.

The club has decided to bring in Alan Lacer to do a 2 day demo and workshop. Alan is well known for his work with a skew and end grain turning. The demo/workshop will be held sometime early next year. More information will be given at a later date.

AAW is offering grants. If you are interested in attending Arrowmont or John C Campbell and would like to participate, visit the link below for instructions on how to apply for a grant.
