President's Message:

"A craftsman works with his hands, an artisan works with his head and his hands, and an artist works with his heart, his head and his hands."

What do you do when you screw up a peice? Most people just throw that piece away. Some of us try to find a solution or a way to hide the mistake. Personally I am getting tired of making my work round and smooth, so I am experimenting. Sometimes it works and sometimes my neighbor has something to help heat his house in the winter. But the thing to remember is, if it is already ruined, you can't ruin it more, but you just may make it more interesting!

Lyndal

New Members/Guests

Hao Chen's father-in-law was visiting from China and attended the meeting.

Safety Topic

Lyndal talked about using a dust mask when turning and sanding because he was told by a doctor that he was allergic to decaying plant matter (wood).

Old Business

Sesquicentennial, UWP ~25 bowls were turned and decorated. Thanks to all who participated.

Open turning day: Lyndal did a hollowing demo. Turnout was a success again. Let Lyndal know if you would like a workshop for turning finials.

New Business

John Jordan Demo, by the Corridor Woodturners: October 3 and 4, 2015 at the "Auction Arena" Building at Hawkeye Downs, 4400 6th Street S.W. in Cedar Rapids. Ph. 319-365-8656. Sessions will run from 9:00 A.M to 4:00 P.M each day. Lunch will be included each day,

Saturday Demo: Bowl Turning

John will demonstrate bowl turning, starting with the basics: wood selection, use of the deep fluted bowl gouge and shear scraper to make finished bowls from green wood, both regular and natural edge. There will be an indepth discussion of sharpening, as well as the properties of wood, including how to deal with cracking and wood movement.

Sunday Demo: Turned and Carved Hollow Vessel

John will show how to make an elegant and refined vessel, starting with fresh green wood. John will show how to shape the outside with a bowl gouge and shear scraper, then using hollowing tools that he makes, how to simply remove the wood working through a fairly small opening. Methods of controlling the wall thickness and smoothing. After the turning, various carving and texturing techniques will be demonstrated.
